

The SoulUnion of Light: Book One

Written by Susan Rall

THE SOUL UNION OF LIGHT

BOOK ONE

The SoulUnion of Light: Book One

Verse 1

Recent happenings in the world not visible to the naked eye are unfolding before Man. This is an update to each one of you, with the latest events in the unseen world for people. This is a message to each one of you.

For now we have gained the trust of all the alien races to work in harmony with what is soon to take place before mankind. Man has reached his time limit on Earth. The time of this current reality is coming to an end.

The next step we are currently working with will be the becoming of the new Earth for the chosen or enlightened souls. Theirs will be a transformation of sorts, not just in their physical form, but also in their DNA. Activation will occur at the soul level of change as well.

Now souls will reach activations that have never happened before on Earth, for the soul awakens to the drum beat of the call of God. These souls will activate the spark of God that resides in them into the full power of the ChristLight. Each of these awakening souls will enter a new plane of existence.

This new plane of existence, as we are told, will be the new Earth. Paradise will exist on Earth, where all your wishes will become reality. No longer will evil reside, for each one of you will have awakened to the true essence of who and what you are. This will happen soon, so keep the faith of God close to you, for this is what will carry you to Paradise.

---,'{@

Verse 2

The god of thunder awakes to the beating anger of his heart, crying out to the souls that are full of hate, anger, murder and selfishness. For these lost souls cannot and will never open their hearts to the joy of love.

These wayward souls have already decided their own fate through words and actions. Even within the troubled society of mankind, these souls are black. They will not be able to reincarnate because they lack the divine spark within. It was not lost; for these souls, the divine spark was never activated in the first place.

The divine spark is smothered and extinguished when true evil takes over the soul of Man, like a most insidious virus. This kind of evil affects not only their soul, but their DNA as well.

These infected souls are no longer in alliance with God's Kingdom. God weeps for their ignorance and malevolence, for the despair that will follow in the wake of every one of these dark souls.

For now, dear ones, just know that there are consequences for those who hurt and maim the innocence of God's creatures.

---,'{@

Verse 3

The Song of Paradise

The song of remembrance comes before you now in melody and dance. Accept these words to awaken your past and future to the new reality as we speak.

For these are our words: in harmony and in trust we serve each one of you, in body, mind and

spirit. We are yours in harmony and song. We dance together in rhythm and vibration, meeting together in one harmony.

We come before you now to teach and guide the soul to the ChristLight, to the light frequencies of love in all things.

For it is the soul that opens the heart to what is truly important in life and in song. Each one of you brings the new Earth into reality for the whole world.

So trust your heart, dear one, and trust your soul to guide you to make the world Paradise on earth.

---,'{@

Verse 4

The frequencies of energy combine to bring the New Earth into reality. Energy and quantum physics make this possible. All of quantum physics brings the frequency of direct correlation with the sole purpose of frequency, of high vibrational technology, into being.

For it is Mankind's choice as a collective consciousness to make this happen. For Man, it only takes one person to start the chain reaction for Earth, for each person resonates energetic frequency. Many people do not realize this, nor how their own frequency affects the reality around them, whether that be positive or negative.

Each positive frequency or vibration has the effect of spreading energy into the world in the form of love and compassion. Each negative frequency or vibration spreads energy in the form of hate and fear, which only bring death and despair into the world. Each person can choose which frequency, positive or negative, that they wish to bring into the reality around them.

No words need to be said for this to take place. Simply carrying these emotional frequencies is enough to cause those changes in reality and in other people within that reality. Those people then carry that influence even further when this happens. We cannot emphasize this enough to each one of you: It only takes one person to change the world as you know it.

So our question to each one of you is this: Which frequency do you want to project into the world?

This is a question each of you must answer, for your emotions decide fate, not just for yourselves, but for the world.

---,'{@

Verse 5

The Heart of a Lion

The heart of a lion speaks your name through the song of vibrations. The dance begins with a melody of the heart and the song of family, as well as protection for the young and the young at heart. The warrior spirit lives in each one of you.

For the souls of lions speak to you now, for the lion roars with thunder. The heart yearns for salvation among humans, for they will come together for the world to see. Until all come together as one tribe, one union - only then will Earth stand a chance of salvation. For as we speak your name in song and dance, we hear your sorrows. We hear and understand your destiny for what lies before you.

Humanity must look into their hearts for the destiny of mankind is ready to begin a new chapter in the timeline of civilization. Open your hearts and souls for the lifeblood that has been given to each one of you.

We are all lions in spirit, for we each feel the wounds of creation that have evolved over time. We are the warrior souls come to usher in the New Earth that is soon to be born.

---,'{@

Verse 6

Forgiveness

The seed of forgiveness begins with a decision for each person involved to grow from the experience. Anyone can choose to view their experiences with the motivation of learning, whether each lesson in this incarnation is for personal or greater purpose. This purpose may have meaning in your life or in the life of the perpetrator which caused harm, be it mentally, spiritually, physically or financially.

Each experience teaches us humanity at the soul level we currently inhabit on Earth. The bigger the lesson, the more souls need to forgive on a karmic level. For a soul to manage to forgive the one that hurt them is the utmost act of charity, for each life plays a predetermined role in this evolution in time. Souls come together for a creation of wills. Each soul has a lesson to learn in the equation of forgiveness and in the frequency of the souls.

It is these soul frequencies that can combine and join forces to create love and unity, or clash to cause destruction in humanity. We have seen extremes at either end of the equation.

From love blooming as a direct result of forgiveness to literal death and destruction from the souls that cannot or will not forgive, it is only a decision away. Every act of harm is an opportunity to decide which will be the energy you put back into the world.

The souls that do not forgive will continue to have these experiences until each party involved forgives each other and lives in peace and love, in this incarnation and all future incarnations they may have.

So the next time you are hurt or offended, know that love wins in the end. Send your love to the offended and the offenders, for this is the only way your soul will be able to advance to a higher vibrational frequency, as well as spreading love into the world.

---,'{@

Verse 7

Song of Remembrance

The song of remembrance of what you are on a soul level plays a very important role in the matrix of time in unison with technological advances in the scheme of evolution.

For it is these advancements that must be made for the soul's evolution over time and to bring in the Earth changes that are taking place. The Earth is changing rapidly before your very eyes with each day, each hour, each moment that passes.

Some souls cannot or will not see these changes happening before them. Lack of perception does not stop the evolution of the reality that is happening to Earth.

The souls that are open to receiving the vibrational alliance are open also to the vibration of the remembrance of their soul's destiny in time and space. These souls will hear the call of duty to the evolution of Earth with their hearts and subconscious minds, for they will have been awakened to their responsibility to the ChristLight.

For a soul to remember, it must agree to the formation of the new timeline in the changing world. The soul's evolution advances rapidly once it is awakened to the rapport of the frequencies of the New Earth taking place.

Such souls are the advanced souls in time, for they came as lightworkers to help bring the ascension of the New Earth. These frequencies are being transmitted to each one of you.

The only question you need ask yourself is this: Are you willing to accept these frequencies that will change your life and your soul's evolution for the better?

The only answer is the one you decide for yourself.

---,'{@

Verse 8

Journey of the Soul Union

The soul union came together in part because of the humans that have begun to awaken from their slumber. Their journey has begun, for these souls are ready to bring forth a new path into reality. Now is the time for the new path and it has been arranged for this to take place before your very eyes.

Such souls are of course known as lightworkers to many of you. Each of them spread light, joy and love within their community in even the harshest circumstances.

These lightworking souls are warriors, for they have defeated their own darkness. Each one has chosen a new path of enlightenment for their spirit to experience, away from frustrations and fears. These souls have heard the higher calling to existence and are traveling the path to higher frequencies.

Each of these souls has opened their hearts to receive the vibrational energies of awakening. It is these souls that will bring humanity from the third dimension to the fifth dimension, and many of them have already been doing so for some time.

Whenever each of you see supernatural events occurring before your eyes, know that it is the ChristLight which is at play. We work together in accordance with the divine source and its wishes. We bring back the unity of love to the world

The veil is growing thinner with each passing day. Each soul will start noticing and receiving vibrational upgrades in heart and mind. These frequencies are for healing, hope and love, for each of you have a destiny to fulfill.

Soon, dear ones, life as you know it will pass into history. The emotions of fear and loss will be no more. Those with the mind to see, the heart to listen and the will to love are the ones whose souls burn the brightest. The fire of the divine ignites within each of you, given by God for eternity.

---,'{@

Verse 8

Song of Forgiveness

For we are lost
Lost in anger
Lost in darkness
Lost in fear

We are blind to joy
For men hearts are frozen
in time and space

For if we embrace the light, our hearts are set free.
Let love flow into each one of you,
For without love we have nothing

So let us open our hearts
Let the light shine in
Let the light of God awaken inside of you
for our hearts bring the light to the world.

Love flows, flows through us in time and space
And we free the world from darkness
One soul at a time

---,'{@

Verse 9

God's Light

We are the world.
We are the future.
United we stand
For the world to see.

The shadows of the past are the past.
For the future our eyes can see,
For the world embraces the light.

So take our hands,
embrace our future.
For the light of God
belongs to each one of us.

We are one heart,
one spirit.
United we stand.
For the love of God
is alive for each one of us.

Embrace the light,
for God embraces your heart.
For we are one with God.

---,'{@

Verse 10

Selfishness starts with fear.

The creed of wickedness comes before Man in greed, lust and murder. Through the conscious choice of such selfishness, in thought or deed, the salvation of ChristLight is often forsaken.

Selfishness starts with fear. The individuals that live with this concept throughout their lives become accustomed to watching their own backs to the exclusion of all else. Never do they look into the world to see what it needs.

Fear brings into the world the emotion of never having enough in life or in death. Fear carries through its own wants and needs to the consciousness of the soul.

Such misguided souls need to be reawakened to the continual matrix of time. Not all that is seen is real, nor is all that is real can be seen. Only by being willing and able to open their hearts will they recognize the true continuum of time and their true purpose in the world.

By doing so, a soul will then be ready to accept the New Earth that is awakening with each moment that goes by. It is with the heart that the new reality can begin to be perceived, where

the needs of mind, body and spirit will always be met. As each one of you opens your heart to the ChristLight, you will be able to let love pour into your soul and body. Only then can each of you find the eternal peace you all desire.

Make the decision of hope and embrace the light. Start with small acts of kindness each day - assisting a neighbor, feeding a stray animal or cleaning up litter. Small acts of kindness change the world as well as your soul. In doing so, you can awaken the ChristLight that lives within each one of you and bring the healing frequency of love into the world.

Love grows and expands one tiny piece of energy at a time, till the world is covered in the ChristLight. Martyrs have made sacrifices both small and great to change the world so that each of you can benefit from their love and be guided to eternal life.

---,'{@

Verse 11

Drums of salvation

In song and in spirit, we send the drums of salvation
In song and in dance, we send love into the world
With word and vibration
We come before you now.

Our words touch the eternal essence of who and what each of you are
Let the spark of creation inside of you live

For those that choose the ChristLight, each of you comes to Paradise eternal
For those whose hearts and minds love others, life is forever

So let us rejoice in each other's songs of the spirit that lie within
For each of you is your God's creation, and with that divine spark you can change the world
With the hope and light that lives in each of you.

---,'{@

Verse 12

False Matrix in Time

Through the hearts of men, their lost souls cry out in pain, for they do not have the eyes to see nor the heart to hear the vibration of love surrounding each one of them. Every one of them are trapped by the false matrix that lies within them. The false matrix is a continuum of negative vibrational energy echoing not only in the soul but in the consciousness as well.

For those trapped in this false matrix, there is only death and destruction on every conceivable level of quantum physics. Their sole purpose is to survive each day, living only in the moments of the battle for survival. They seek to conquer, especially in the bloodless contest of who has the shiniest toys, the fastest cars, the biggest houses.

They all fail to realize that the greatest joys are not in material possessions, but in the joy of giving selflessly from the heart. By giving of yourself unto others in spirit, this breaks you free of the false matrix that lurks within each of you. Kindness and compassion are the keys to setting yourselves free so that each of you can experience the paradise in all of creation.

Until then, dear ones, you are loved. Each of you has been created for greater things than a pile of retail receipts, greater things than you have been told or can imagine. We come to you with love and salvation - accept this gift and the world is yours.

---,'{@

Verse 13

In Truth and Light

The heart of man listens with bated breath for the soul to speak their name in truth and light. For it is this light that carries you through the darkness that invades this world.

The light lives inside each one of you; the light of the world reigns inside. The light vibration fills not only your life, but also lights the world with eternal flames of love.

---,'{@

Verse 14

Song of Surrender

We surrender to the light, for it is the light of God who lives in our hearts. In uncertain times, we bow our heads to You. In tears and in wonder, our hearts are lifted up to You.

In song and praise we come together to see the heart of God.

In trust and love we come before You now.

We will find salvation for those that seek the ChristLight.

Our hearts beat as one. One heart, one love. The love of God beats for the salvation of Men and for all who seek the ChristLight. The light will find you deep in your heart, so dear ones, seek the light for release from all your worries and sorrows. It is the ChristLight that will set you free.

---,'{@

Verse15

Our Hearts Beat as One

Our hearts beat as one love for the salvation of God. Our hearts beat for the love of God. We come before you now in love and compassion. We understand that life is difficult at time, but we will always be here for you when you accept the light. In trust and unity we come together to make dreams a reality. Don't lose hope, for we are always with you.

Our hearts beat in unity, waiting for salvation to arise out of the pits of despair. We wait with hope for the slumbering souls to awaken to the sound of our hearts in unison with song.

Our hearts beat to the thunder and rain for the soul's struggle to hear the music that lives inside each one of you. The soul awakens when the spark of God is lit. The souls of Man yearn for salvation, for only then can souls find the peace that lives within their hearts.

The souls of mankind come as a collective consciousness of energy that was formed from the divine consciousness. This energy is what created and brought your soul to reality.

---,'{@

Verse16

Destiny of Our Hearts

The ChristLight knows our destiny, for this destiny is within each of us. In songs and music, we remind ourselves of our purpose in life. In song, we meet together in vibrational unity for the world to see.

Together we are one union. In light, we bridge the gap of what could have been to what lies before us in Paradise. We wait for the hearts to listen, for the souls to see the Paradise that exists within each one of you.

---,'{@

Verse 17

Our hearts awake to the beating sound of thunder. The hearts of Man yearn for salvation. When the earth shakes and roars, this is the hearts of Man weeping in despair, anger and pain, for they are the ones that turned their back on God. This comes from the pain of God and is felt among those who rejected all that is good in the world.

All the pain and suffering comes from long separation between God and Man. There are consequences for Man neglecting to listen to their hearts and souls. As a result, the time has come for this to take place.

The innocents on Earth will be spared of all suffering, for they will be protected. Each and every one of the innocents will be protected by the Holy Spirit, for they have no responsibility in what is to come.

We the Guardians were given permission to relay this message to you. When the time is right, you may broadcast this message to the world, so hear our call and heed our warning.

Not a hair of harm shall befall the innocents of the Earth, for the meek shall inherit the world.

---,'{@

Verse 18

Soul Union of the Heart

The soul union of the heart comes before you now to reach new heights of love for each of you. We come together in unity, for the New Earth is coming along quicker than we had anticipated.

With this great news, we felt compelled to share this with each one of you, for our hearts are full to bursting with the love in our hearts. Our hearts beat as one, in unison and trust for each of you made this possible. By giving the life blood of the unity of the ChristLight to the world, you have shared your light with the world. The ChristLight has been elevated to a new level, for the Earth now glows of love and light. New vibrational changes have taken place and out of darkness comes light. All the world will see, and feel, our hearts merging together as one.

---,'{@

Verse 19

Heart of Man

Our soul awakens to the heart of Man. When the student is ready, the teacher appears.

The soul servant of God comes through to each one of you when the soul is ready to answer the call of the ChristLight. Only then can the teaching take place. The heart awakens to the sole purpose of helping mankind, for mankind is not aware of all the details that have been taken to save the Earth.

For the ChristLight lives inside each one of us. We the archangels grace each one of your souls in life and in death. The purpose for this is to walk with God on all levels of creation.

The evolution of Earth began with one spark of light, followed by more and more. These sparks of light became brighter and brighter with each passing day, taking primeval form and evolving from there. This energy created through photosynthesis came together to create the first human on Earth.

Once this had taken place, the alien races played with the human DNA to try and populate the world to their liking with so-called "super" humans. The "super" human race does exist, but they are not incarnated in the light. In God's hands, we serve on Earth to help create the unity of God in human DNA and at the soul level of consciousness.

---,'{@

Verse 20

Soul Union of Contracts

The soul union of contracts come together in part from the divine force behind Creation. The choice, of course, is the soul's decision which includes contracts and obligations which each soul needs to be fulfilled.

Souls meet with elders to make plans for their next incarnation in the life cycle. These plans are detailed in every way imaginable, and these plans form the basics of your life and the choice each one of you make.

This forms the gateway of your soul learning to work in harmony with yourself. At the soul level, each of you works through the lessons you need to learn during the evolution of your spirit. Through these lessons, your souls grows and learns to advance to the next level in time and space.

There are many steps and links in the chain of lessons to reach the highest level. The soul itself and the elders know when the soul has reached this level of consciousness, which can take many lifetimes.

Once souls have completed all aspects of their soul growth level, they can choose to keep incarnating to help the Earth's evolution or they can choose to answer the higher calling of helping other souls ascend. It is the desire of the divine force behind Creation to reach souls and help them fulfill their destiny, which is the ascension to and merging with the divine.

---,'{@

Verse 21

Anunnaki of the World and Beyond

In the continuum of time and space, rapid changes are affecting the entire universe, not just Earth. For some cultures, we are what humans call the fallen ones. This is misleading, for we follow the ChristLight. More simply, we follow the divine light from which all of creation comes.

We are the lightworkers behind the scenes that help to shape reality. We work with other light beings in the universe and the Galactic Federation. Our correct term that humans are more familiar with is Anunnaki.

We follow the roles of freedom and justice, for we seek fairness and balance in all things. Perhaps that is why less-enlightened souls call us fallen or evil, for we seek justice for the innocents of Man. The justice we work against those that seek darkness and pain doubtless makes us their enemies.

For every right, there is a wrong. Every one of you sees these wrongs played out before you every day. We work for justice, for the balancing of the scales of what is right. Justice is not evil in and of itself, but for those that are smote by justice, it is not a friend.

We the lightworkers call out to each of you to balance the scales in your lives, so that karmic debt will not continue to accrue and follow your souls throughout all of your incarnations.

For this reality is polarized. Black/white, hot/cold, light/dark, good/evil. Everything is needed for the conflicts and balances upon which every aspect of reality depends. Opposites will always exist, but the true light of the divine is eternal.

---,'{@

Verse 22

Atlantis Star Beings

We are the star beings from Atlantis. We welcome you in our thoughts and prayers. We come before you now to wish each one of you great tidings of peace and love. This is your time to shine light the countless stars in the heavens.

Our message to each one of you is simple, for this message involves every aspect of your higher consciousness in thought and form. Our message is this: love thy neighbor, love thy enemy. For we each have been both to ourselves and to other souls in all incarnations.

For we each play role games in this lifetime as we have in past lives. In relationships near and far, in unity and trust we honor each one of you for forging the paths that lie ahead for all of you.

Each one of you, by your very existence, has made the commitment to the new world that lies before you. We honor each one of you and your role in the formation of the New Earth. We leave you to your own devices for now, but know we are watching the New Earth that is unfolding before you all every moment of every day.

In trust with the union of souls, we come before you now and in the future. As each one of you exhales your last breath in this lifetime and inhales the breath of life into the New Earth, we stand guard to welcome each of you into Paradise.

---,'{@

Verse 23

Light of the World

The light of the world begins with each one of you in song and celebrations, for the heartbeat of Terra lives inside all of you through your thoughts and frequencies. We are created to bring the world together through vibrational frequencies of love.

The humans of Earth need love to survive. Now is a perilous time for Man and unity is needed more than ever. The soul of Terra itself is at stake even as we speak.

The hearts and souls of Man are alive and well, for the divine force behind creation lives inside each one of you, ready to burst out if you only let it. The harmonic tones of frequency each of you possess can change the world from darkness and destruction to the eternal light of the divine.

Every one of you can make the decision to spread your wings, and to spread love throughout the world. It is this song that comes before you now. It is certainly a small world after all when the light rays of the universe cross the vibrational frequencies of Earth. We have seen this happen before, when the light intersects with the frequencies which cross the galaxy in time and space. It is happening again, and every time it does, the meeting changes the universal collective consciousness.

This intersection takes place one soul at a time in the consciousness of mankind until souls can link together as one. The world will be trapped in vibrational darkness until enough souls can listen with their hearts, rather than their eyes or egos. This is when the world will change from grey dark matter surrounding the Earth to bright spiritual light that wraps around this planet and shines throughout the universe.

Hear us, dear ones, for your world is changing rapidly every hour, every minute, every second. It takes only moments for a single soul to change the course of this transformation through thought, word and action. Imagine what could be accomplished if all mankind banded together as one to fulfill the Earth with light. Just imagine what humans can create working in

unison with the divine light behind creation. Imagine the sweet chords of harmony and love filling your bodies with the divine ChristLight.

---,'{@

Verse 24

Darkness to Light

In the blink of an eye, the world can change, for every moment in time changes the world. The reality from dwelling in darkness to living in light. The souls which are receptive to the light will see the transformation that is taking place from darkness to light.

This was foretold many years ago and each soul that came to this timeline, this incarnation, chose this because of the rapidly changing conditions on Earth. These souls existing here now are some of the most advanced souls ever to be born as Man.

These souls help bring the New Earth into being from death and destruction to the divine ChristLight. All who come together as a nation of one have a part in creating the New Earth and the reality of Paradise. Each of us are lightworkers in the world. In unity and trust we come before you now, ushering in the New Earth as we speak.

These changes are rapidly happening to every soul as we speak, showing a clear roadmap to Earth changes that are happening as well. The goals of the New Earth are peace, love and unity for all. Every soul working with every other to bring harmony to each other and to the world in all areas of life.

It was written in the stars long ago that this would take place. Man helping man, child helping child. We read this long ago, we are the advanced beings you call the Galactic Federation. We are a council which oversees the planets within our protectorate, to guide and guard the inhabitants of each one.

The changes happening to Earth have been eagerly awaited, for we have waited millions of years. This new reality, this New Earth, will awaken soon from slumber. We can sense the Earth going through the labor pains of this transformation as we speak. The New Earth will be born soon.

In terms of wants and needs, the New Earth will be a paradise. The eternal divinity of the ChristLight will breathe love into each one of you. We come before you now to give you the signs that this is taking place, that you can see for yourselves.

The first stage of the process is an increase in flooding, along with unrest in all the cultures of the world.

The second stage will be marked by an increase in volcanic activity in all areas of this planet. Along with this will also be increased sightings of alien spacecraft in the sky, to the point of becoming a daily occurrence. The vibrational energies that the alien races will be transmitting to each one of you are to help with the transition on Earth.

It is these vibrational frequencies that will fill the skies, the harmonic frequencies of peace and love to all Earthlings. We will continue to send our own frequencies to enlighten souls and help the blind understand what is taking place. Such souls will be the ones already awakened in their hearts and they will instinctively grasp what is happening. They will understand that the darkness of Earth is coming to an end.

The next stage will happen in the blink of an eye when the New Earth has opened up and has been given birth into reality. The ChristLight will fill the skies, grass and trees will be greener, death and pain will vanish as the divine light behind creation bathes all. The spark of divine creation within each of you will glow as the ChristLight fills you.

All these events were foretold and recorded, down to who and what will happen. Take our message to heart, dear ones. Take our prophecy and accept these words with your heart and soul. Very soon, the time of Paradise on Earth will come to pass.

---,'{@

Verse 25

Kings of Peace and Salvation

We are the kings of peace and salvation coming before you now in peace and sovereignty. As we impart this message to you, so dear ones listen with your hearts, listen with your souls. The Earth shakes and thunder hits the skies, turning Death loose into the darkness.

Do not be afraid, as this is the sign among the planets that the New Earth is about to be born out of its slumber. The New Earth arrives with the hunger for peace, for the prophecy has taken place. The divine light of creation has finally returned, not only to Earth but to the souls of mankind. Souls that were once full of darkness will awaken to hearts of gold. In want and need, the souls of Man are hungry to embrace the ChristLight in all aspects of their lives. Love has finally come to the world.

---,'{@

Verse 26

United As One

Warriors of fire, unite as one
Warriors for freedom, hear our call
Warriors for salvation, unite together
Warriors reunite for the life of Earth

Warriors unite for the soul of creation
Warriors unite for your brothers and sisters
Warriors unite for justice in this world
Warriors unite for salvation in this world
Warriors unite for the weak and innocents of this world
Warriors unite, for you are the world.

Warriors, you are the salvation when united as one
United for the ChristLight, united for the world to see
Our hearts, our hands are together in one spirit
Together, we unite the world as one.

---,'{@

Verse 27

Lead the Way

Let us lead the way
Let us hear our hearts
Let us sing in song
For the words to touch our hearts
For the words to touch our souls
For we are the world
We are the salvation that lives

Together, we are one
For we each have wounds
Physical and emotional

Let our hearts mend
Let us give love to each other
To bind the world of salvation
The warriors unite as one song
One soul can unite the world
One soul at a time
We are united as one.

---,'{@

Verse 28

Through the Heart of Man

Through the heart of Man... Mankind must be weeping in sorrow for the world is coming to an end in their eyes. With your pain and suffering, you each feel the weight of the world in on your shoulders. And yet, every one of you powers onward in the hope of a better tomorrow.

Pain has no beginning, and therefore no end. We feel for each one of you. We weep along with you in your sorrows. It breaks our hearts to see humanity in such despair, and yet we are limited in the amount of help we may provide. We are invisible to any who cannot see beyond the pain and suffering of this damaged and dying world.

Each of you have a part to play in transformation of your world and the future of humanity. Take heart, dear ones, for the future paradise is at your fingertips.

In response to want and need, we all come together to create this future paradise. We come together in unison and trust that humanity will see the ChristLight, for each of you have particles of this divine light in your heart and soul.

It is a simple path of logic, that turning on this divine light that every one of you possesses brings peace and miracles in your lives. For those who have the heart to hear and the mind to see, paradise lies before you even now.

When the heart hears the divine call of light's sweet song in rhythm and harmonic frequency, such things are made plain. These frequencies are being transmitted to each one of you, and by opening your heart and mind to what is beyond physical perception, miracles will begin happening before your eyes.

We the Guardians come before you to give you hope, to lift up your spirits and show you the wings of your souls. In unity, all things are possible by the divine force of creation's eternal flame of love.

---,'{@

Verse 29

Unison of the Hope's Promise for Humanity

We come before you now to challenge each one of you to collaborate with each other. There is a great need for all of you to work in unison, using teamwork to bring together your many tribes and civilizations. Each of you has a destiny that must be fulfilled to advance to the next level of spiritual awakening. Only by working together can this take place.

Each life cycle, each incarnation, changes your reality in time and space. This was foretold millions of years ago. The Krystal Technology is in play as we speak.

The Krystal Technology is one of the evolutionary advancements for your kind in this continuum. In simple terms, this technology is being used to bridge the gaps of what could be.

For this to effectively take place, the evolutions of mankind's souls must work together. It is this cooperative vibration that creates the Krystal Technology, even though many of you are not aware of it. Each one of us are here to help enlighten the souls of mankind.

Many civilizations ago, humans knew this technology well. However, the darkness brought by Dracos and other malevolent entities encased the human population. The energy of forgetfulness blanketed all life forms on this planet, causing all life to forget the wisdom of the incarnations of before, and to forget their ability to use sound frequency to heal yourselves and the Earth.

At that time, the Dracos also used energy harmonics to lay down a veil on the consciousness of all humans, to dumb down your bright lights so that you would forget energy vibrational frequencies, most forms of communication such as telepathy, and mastering the force fields of quantum physics. All things you would need to effectively fight their incursions into your minds and civilizations.

It is these fields of quantum physics which helps create the reality you now perceive. These fields help enlighten the human soul and raise its true potential in all forms of reality. We the Guardians work to help the advancement of the human race, helping you ascend once again to the ability and wisdom that your oldest ancestors possessed.

It has taken millions of years and the rise and fall of many civilizations to make this even possible. Each piece of the puzzle is needed to be laid bare to be able to work out all the kinks of mass global evolution.

We have slowly accomplished this, working with the patience of water carving stone. Time as each of you know it is coming to an end. We have helped the consciousness of Man evolve more rapidly over the past hundred years. We have given each one of you the knowledge the advance to the next step, not only for your soul, but also for the advancement of your DNA and your spiritual consciousness.

For the Earth itself is also changing, in its very nature and in the fabric of your reality. To be able to work with the new changes, you must come together as one. We will help you do this, for we love each one of you.

We are the caretakers of Earth and of humanity, working with the population of the planet. We are designed to work together as a tribe that oversees and guides all civilizations to a higher plane of existence. As the divine force behind creation has already foreseen, your people need help to grow and learn. Your physical and spiritual evolution has been tampered with and we are here to help you overcome the damage that has been done.

We are watching and waiting for each of you to reach out to the ChristLight. By doing so, your life - body and soul - connects to and activates the divine spark that lives inside each one of you.

---,'{@

Verse 30

Heart of the Land

While the white man speaks, the wind hollers. For it is the blood of the land that calls your name. It is the heart of the land that reaches out to you. In spirit and song, we call out to each one of you.

With open heart and open hands, we come to you in unity and trust, for we each send to the world the frequency and vibration of love. It is the pure essence of love that enables connections to form and harmonies to happen.

We are the guardians here to guide each one of you on your way to the light. We are here to help you unite the world in the harmonic frequency of love. All we ask in return is that you love thy neighbor, love thy enemy, love thyself. Love the divine spark that lives within each of you, for you will then connect to the divine force behind all of creation.

It is the simple things in life that unite us all. By warming our hearts to all that is love, we the Guardians come as protectors of Earth. We come in peace and celebration as each one of you hears and pays heed to our message.

Soon things on Earth are going to appear very unsettled and discord will take place. Fear not, for this is part of the natural evolution of your kind. The discord is simply the next step for Earth and for each of your souls. We are all one and every one of us is part of the light of the world. One spark, one love, one hope unites the world together.

---,'{@

Verse 31

Sound Frequencies of Evolution

We come before you now in unity and love. It is sound frequency which allows us to communicate with you at the spiritual level. It is this vibrational harmonic which carries the frequency vibration in all things and all of life.

These sound frequencies, many of which are outside of the range of physical hearing, involve high level physics and coordination of time and space. The harmonics of these frequencies resonate with the atomic particles that reach and make up each of you. Certain frequencies are soundless to the human ear, but not to those few which have what you call telepathic or empathic ability.

Every one of you was gifted with this instinctive ability to carry out your destiny. Those that have this gift to communicate telepathically or empathically are already using the vortex of energy within to receive our messages.

Those of you with this gift are direct descendants of ours. We come to you for the purpose to save you and your families as well, for we also live in your hearts, minds and souls.

You agreed to live in this incarnation with those souls that were born into your family. We come before you now to thank all of you for helping us send the message of hope, freedom and love. We do this not only for mankind, but for the world as well.

Souls gravitate towards the path of least resistance, as do most energetic reactions within physics do. However, in your case, you each chose the opposite. You challenge your body, mind and soul every day. You take the path of challenges that most other beings of light could never understand or even imagine. You chose this path to be a warrior, and for this reason your ascension will occur sooner rather than later as a result of who and what you are. You each play a part not only in this world, but also for the New Earth that is soon arriving, a world free of the darkness that plagues your reality.

We each play a part in this dance. Every one of you has the potential to be an ascended Guardian. Each of your lives has led you up to this point. In the song and dance of vibrational harmonics, we celebrate you.

Soon, dear ones, the awakening of souls will come about, giving each of you the opportunity you so desperately want for the healing of this world. This will happen sooner than you realize. In the passage of a moment, all of you as well as the world will awaken to a paradise on Earth.

Each of you were chosen to fulfill the love of the divine force behind creation for all creatures. Until then, just know we have and will always communicate with you.

Some souls have misunderstood or are misguided in what they have been told or what they have remembered. The darkness that has been laid down on this world has sent incorrect messages to the souls it has invaded.

It is for this reason that we come to you now, to reassure you. Every channelling message we have given to you is our thoughts, words and love to the world. For we are one in thought. You are a part of us, much more than most of you realize. You are our descendants, our tribe. You are an ascended Guardian for Earth. Each of you came here to bring our messages and your own as well. Your message is to never lose hope, for the light and its love will always be with you.

---,'{@

Verse 32

Open Heart and Open Minds

We are the Guardians. Hear our messages with open heart and open mind, for no greater words have ever been spoken for mankind. Our thoughts and vibrational energies are directed to each one of you.

The only question you need ask yourselves is this: are you ready to hear and understand these words? Only you can answer that for yourself.

The frequencies we send to each one of you carries the frequencies of hope and love. These thoughts carry the chains of vibrational energy from one soul to another. People receive our messages in thought forms when the heart is ready to hear them.

We have come from a place of peace and love for each of you. We help to awaken the souls that are in slumber by activating their heart chakras. Ultimately, of course, it is the soul's decision whether to accept our gift to each of you with our thoughts, words and harmonic vibrations of healing.

For the soul needs to learn to communicate not only with words, but with thoughts and action. For every action, there is consequences, be they positive or negative. This is true in all physics that govern this reality. Physics intersects with many interdisciplinary areas of research, such as biophysics and quantum chemistry, and the boundaries of physics are not rigidly defined. What you understand as physics is only the beginning of the influence it truly represents. These consequences have a life of their own by sending the vibrations of love or hate in the world.

This is the law of one principle: do unto others as you do unto yourself. The Law of One teaches each person to have unity with each other. This is a simple message to live by and at last humanity is making significant progress on this in their actions and thoughts.

For wars are still happening, along with murder and violence. Humans need to take a step outside of themselves, their own fears and pain, to have empathy for others with an open heart and mind. The Law of One was created as a guiding path for all humans to be made aware of the infinite possibilities of life and all creation.

---,'{@

Verse 33

Unity in the World

Each one of us brings unity into the world by our thoughts, speech and actions. Words carry a vibrational frequency all their own. By adjusting depth and tone, we each use to send our

thoughts and energy into the world to convey our messages. This is a part of the human experience each of you share.

The technology of the advanced alien races has no need for words or verbal components. Each of us uses telepathy to relay our thoughts and emotions not only to our own tribe, but also to the other Galactic beings in the universe. Our level of technology in all areas of life is light years beyond that with which you are familiar.

We have seen your future. We have seen your past. The only question we have for each of you is this: what decisions will you make to affect your life in the present?

Love has no ending and no beginning. Each one of you has incarnated several times on Earth and on other planets as well. Every life lived is a stepping stone to the next level of growth in your souls. Each step brings a soul closer to the unity of the divine force behind creation.

We come before you now to whisper your name, to awaken your souls in love and unity. The divine spark lives within each of you, in your heart, mind and spirit.

In honor and trust, we receive your messages of hope for this day and for tomorrow. Today we ask of you what life you would be leading if you knew you had no obstacles in your way? If you live in fear, all of life's obstacles surround each part of your life and soul. Your spirit contains the frequency of fear when each of you live in this alpha-rhythm state and this frequency can weaken and stop even the strongest of warriors.

Each level of existence begins with love. Each level of existence begins with thoughts and feelings in unity with all the world. Each of us comes from a place of love, and out of that love the world is created. Love makes all things possible.

Love hears all things. Love creates all things. Love heals the wounds of the body as well as those of the soul. If each one of you are willing and able to accept this precious gift from each other.

Once you can accept love, you will find peace in your hearts, joy in your souls and the world will become paradise on Earth for each one of you.

It is not the faint of heart that choose to be reborn, for Earth is a hard school of wisdom for the body and the soul. Life and the meaning of life is one of the base principles of love.

Until a soul learns the wisdom of love, it will keep incarnating to repeat the same lessons. Until each of you learns to forgive, until each of you learns not to fear the unknown, until each of you learns to let go and walk in faith for yourselves and your futures.

Know we honor each one of you for your commitment to change the world with the light of your souls.

---,'{@

Verse 34

Eyes of God

We come to you in peace and in sorrow, sorrow for the souls that are living in darkness. Sorrow for the souls that cannot or will not open their eyes to the reality that is unfolding before them.

The eyes of God judge each one of you by your thoughts, words and actions. No matter what your faith or the limited word you use to refer to God, there is but one divine force behind all of creation, and it is the judgment of this force which is at hand.

This is a wake-up call to each of you who embrace the darkness of the world. It is not too late to embrace the light and return to the path you were meant to walk.

Salvation is coming soon, and people need to open their eyes to what is happening on your planet. Souls are at stake as we speak, so please listen to your hearts. For Earth itself, your freedom and your very next breath are at stake.

The divine force behind creation is tired of waiting for souls that have turned away from the light. This force and its agents have shown each of you in countless ways the signs that the ChristLight is with you. This force has answered the prayers sent by those that ask in faith, hope and love.

The only thing that is asked in return is faith and love, not only for the divine, but for your fellow Man. Dear ones, children of creation, why is this concept so very hard for each of you to learn and understand?

Now the time for choice will soon come to a close, for the soul of the Earth is on fire as we speak. Dear children of creation, this is the wake-up call for all of mankind. All of this will end as it has begun on Earth.

Souls decide their fate. Souls choose to walk in peace and love or choose to embrace the false matrix of darkness in this world. Choose wisely, dear ones.

---,'{@

Verse 35

Souls of Tomorrow

The souls of tomorrow are coming before you now in the continuum of time. For while time is linear in many perceptions of Earth, this is possible to understand if you have an open heart and an open mind. The higher soul frequencies in humans know there is a calling in their souls to this new reality that is to be born.

Take heart, dear ones, for reality is not all that it seems. Beyond the veil, the light shines more brightly. The New Earth exists in a different dimension of time and space. The souls of the future and the past will be reunited as one consciousness, if they are willing to embrace the light that is shining beyond the veil.

Time is a fabrication of life. Reality is a matrix you are born into. And this matrix is falling apart before you now. This matrix of life forces are channelling the ChristLight that exists within each one of you. Your soul understands and receives information, though most people are unaware of it happening.

When the false matrix has completely fallen away, humans will finally see the light of reality for what it is. When this occurs, you will all evolve into the New Earth. Your minds may not understand this, but your souls do.

---,'{@

Verse 36

Intention is Everything

Intent is the act by which life begins and ends in the scheme of the life energy by which all things are created. Animals understand this concept, but humans have shown that many of them have difficulties understanding it.

Most humans do not understand the power they possess within themselves. Every thought, word and action begins with an intent.

Intent forms ideas and thoughts, and it comes by feelings within the soul consciousness of Man. Souls are often overwhelmed by the conflict of light and darkness at all times, whether awake or asleep, and particularly when dreaming.

When souls enter the dream state, they can be influenced into dark intent by other entities that do not hold the best interests of they or their loved ones to heart.

Entities of dark intent are here on Earth, and they are desperate on a mass scale to bring this world into darkness. In doing so, they will succeed at their end game to destroy all goodness that is love.

If this were to take place, the Dracos would no longer be hidden in the shadows of time and space and humanity would be at their mercy. Humanity would be at great risk in both body and spirit, to a level that humans cannot understand or imagine.

To prevent this, we need many lightworkers willing and able to put the ChristLight into the world and bring the intention of all that is good and holy to those around them. Intention is everything, for one person can change the world with their thoughts, words and actions.

Each of you have been chosen by the divine force behind creation to help bring the light into the world. You are called now to make this change with your thoughts, words and actions. Call upon the deepest part of you, where the divine spark resides, to bring these changes to reality. We know each one of you have the ChristLight in your souls, so let your light shine into the hearts and Man and into the world.

---,'{@

Verse 37

God's Love for Humanity

We come to you in peace and love, with respect given for all living creatures, for each feeling and emotion serves the ultimate purpose of love. Through love, all things are possible. When the Guardians are called, miracles take place for the people that are willing to hear our messages with their hearts, minds and souls.

"For the people, by the people..." This will come true sooner than the people realize. We have foretold things that will happen as described, but with the world itself taking center stage. The events that have been foretold were stalled, for the divine force behind creation wanted the perfect time to reveal the plan for ascension.

As we were told recently, the world is getting darker with each passing day. As a result of this, the plan to activate ascension is coming quickly, dear ones.

So prepare yourselves, for the ChristLight will be taking action soon. Take heart, for the world as you know it will soon change. The most important part of this change is that what will remain constant is the love that the divine force behind creation and the Guardians have for you.

These are some of the events that will soon come to be. First, the Earth will quake and shudder, and these earthquakes will be followed by flooding. Death and destruction will happen as a result, but all will not be lost, and those that pass will be reunited with the ChristLight. The saved will arise to the New Earth of which we speak, and this change will begin soon. The divine force behind creation did not give an exact date, but the time is coming. Say your prayers of repentance, for the divine force behind creation hears you all. The ages that were once here but were lost to darkness will miraculously arise again. Just as the Great Flood happened to wipe out evil so the world could begin anew, so too these events will wipe out darkness.

---,'{@

Verse 38

Freedom of Evil

In the beginning of time, Man was created in the image of God - this is what has been written. The reality is that Man was created to be slaves to what humans call the dark alien races.

Aliens are superior to Man in many ways. Compared to Man, aliens have had billions of years for their advancements and evolution to take place. Mankind is still in their infancy of development.

Humans have come a long way with the help of the guardian alien technology that watches over and protects Earth. A little more than a hundred years ago, mankind was still using horses as a mode of transportation. It is astounding how much has changed and transpired in that century.

That is one of the many reasons enemy forces of darkness are ramping up their efforts to seek humans that are vibrating at the lower frequencies. Souls that operate on these lower frequencies are caught in the emotions of hate, fear, anger, greed and lust. Souls that operate on these frequencies are easier for the forces of darkness to control and manipulate to do their will.

Humans have evolved enough to begin to understand and accept that there is life outside of Earth. This acceptance is a part of the evolution of human development.

This has precipitated the danger of the attention of certain alien tribes which have their own plans for Earth that are filled with evil. Most other tribes have the best interests for Man at heart, but there are those that are on the same level as what humans may refer to as demonic entities.

These "demonic" alien races are few and far between, but they are strong and they are sneaky. They have operated for a long time in this reality by playing manipulation games and setting humans against one another. If you are distracted by the negative emotions, you are easier to control.

However, the ChristLight and the love of the divine force behind creation will always overcome the darkness. We tell you this not to frighten you, but so each of you understands the true nature of the forces at play.

Evil plays a small part in the world, but will not have a permanent impact as long as humans embrace the light. The Galactic Guardian forces will help humans overcome the darkness, for you are not alone.

There are those among you that are tired of hearing day after day that big changes are coming. There are those who have stopped listening with your hearts, relying on limited senses and even more limited wisdom to tell you what is really happening. Dear ones, this is exactly what the "demonic" alien forces want. Humans have been tricked into putting their defenses down, and so their souls are easier to invade. Their bodies become slaves to the demonic forces.

This is our warning to mankind. Listen with your hearts, your minds and your souls. All is at stake, for the moment of change is real. It is happening now, for those that can sense what is really happening, and more quickly than you can imagine.

As a snowball gets bigger and bigger rolling downhill, going faster and faster until it cannot be stopped, so too are the changes happening to your world.

---, '{@

Verse 39

Love for Humanity and the New Earth Coming Soon

We the people rise up to the challenges that we face against violence. United for the cause of salvation of souls for their collective consciousnesses of the world. The souls of mankind

wept in pain, crying for salvation to come. They wept for hope, they wept for freedom from pain and suffering, not only of past wounds but also the pain of surviving the world that is currently in play.

For those that can see with their hearts and listen with their minds, they understand that hope is coming. What is in question is the fate of the souls that are so battered from the evil that is on them that they cannot even hope for a brighter future.

The solution to this is simple: call on the ChristLight to help raise the frequency of your own soul's vibration and that of the world. This will give other humans the spark of hope that they need to hope and love again. By doing this, you will play a part in saving other souls and the world itself. No one person can do this alone. Every lightworker must combine their forces and work in unity for the salvation of humanity.

For souls are ultimately reunited as one soul body, with the experience of billions of lives. This one body of light and love forms the collective consciousness to be free of all evil.

This will happen quickly, so take heart dear lights. This will transpire in the space of a moment, when people least expect it. Of course, the only power that knows exactly when this will occur is the divine force behind creation. The Guardians have been given the news that it will happen soon, meaning it could be today, or next month, or next year. Everything has been set up for this to take place.

The only question in all this, dear ones, is when the divine force behind creation is going to pull the trigger. The sooner that souls are ready to accept this, the easier time they will have in accepting and cooperating with the transition to the New Earth.

We love you and look forward to sharing the new world with you. Until then, know we love each one of you. Hope is never forgotten or misplaced, for it is the light which guides you through the darkness.

---,'{@

Verse 40

Soul Vibrational Hymn

The matrix is the quantum field of what is the reality each of you live in. Without thoughts and emotions, each individual in the collective consciousness couldn't survive.

Each soul carries a vibrational chord, a sort of energetic note that resonates according to their thought patterns. It will resonate in accord with thoughts that are positive or negative. It is up to each one of you to decide which note of frequency you wish to project into the world. For just as these frequencies affect your personal vibration, so to do they transmit to the rest of the world as well.

You each play a part in the world by virtue of the collective consciousness in which you exist. Each of you can bridge the gap to bring peace and joy to the world or accomplish the opposite by bringing darkness, fear and hate through your ideas. Each emotion plays a part in the matrix that is the reality in which you live.

The quantum field of energy that connects each of you began the moment of the creation of your souls. Every one of you came to experience extremes in feelings and sensation so you could awaken your souls from slumber.

The vibrational frequency of the light is the vibrational frequency of love and joy. This frequency can gain more complexity and maturity depending on the life lessons you have chosen to learn.

Such choices are made and agreed upon before your incarnation in this world. The choices you made depend on what stage of evolution your soul is at and what purpose you may have chosen to follow.

The more advanced souls choose harder lessons, so that the wisdom gained from them strengthens and advances the soul along its development. By doing so, these souls reach a higher state of existence within the ChristLight.

Also part of the experience are the feelings and sensations of life circumstances, both positive and negative. There must and always will be darkness as well as light. One cannot exist without the other, in quantum physics and soul vibrations. You must have both to understand and gain wisdom from the depth of emotions and how they affect not only yourselves but also the world around you.

Darkness is the void of all that is good and pure in the soul. The night of the soul comes from fears which have festered on the soul level of consciousness into which each of you are born. But just as day follows night, so too does darkness become light.

But souls in the throes of darkness have a hard time coming to terms with life in general, for they are farther from being able to ascend to a higher state of consciousness. By choosing light over darkness, the soul comes closer to being set free from the bondage of fear. Desperation can also drive some souls who are weary of the fear into reaching for the light. However, for this to be successful, certain events need to take place in hearts, minds and spirits.

These events are orchestrated behind the scenes and fulfilled prior to birth. To experience extremes of emotion is one way for a soul to advance to the next level. Each soul must go through this to reach the ChristLight of the divine force behind creation.

Each incarnation brings us all one step closer to making this a reality. Souls will be reborn into an energetic state of consciousness within the quantum field. When souls reach the center of consciousness, they are returned by choice to live and breathe the ChristLight forever with the divine force behind creation.

In short, these souls are returned to God. Once there, they do spiritual work for other members of humanity that need help in achieving this ascension. They do whatever is needed to serve the greater consciousness on Earth by bringing joy and transmitting love in the world.

Dear ones, many of your souls are presently at the last stage of consciousness. When biological death occurs for you, your soul will be free to return to divine force behind creation. You will be given tasks to do, to help the souls still residing on Earth. Every soul serves a purpose in their evolution within the continuum of time.

---,'{@

Verse 41

Arcturians and Lyrans Offer Assistance to Earth

We the Arcturians and Lyrans come before you now to offer our assistance to the world. The offer we have for you is that of peace, love, kindness and generosity in all facets of life. Earth is not an easy world to live in at this present time. We understand that if humans are to survive in this world, they are in need of necessities. Whether they be medicine, food or shelter, we can and will help in every area of your life.

All that is needed is to ask and have faith, for faith can move mountains if you let it. We find joy in helping others. We have the power to make things happen behind the scenes by orchestrating events so that aid can arrive for those who are in need.

Have faith in our power and have faith in the ChristLight that lives inside each one of you. All you need to do is ask and we will start making things happen in your life to provide each of you with a more substantial existence. Every one of you can enjoy your life that the divine force behind creation has blessed you. Until then, dear friends, we are eagerly waiting to answer your call.

---,'{@

Verse 42

Through the Eyes of a Child

Children listen with their hearts and souls to the frequency vibrationals that are spoken to them. In song and dance, they hear our message through the energetic chord of our voices, and by our body mechanics and souls meeting as one.

This is the pattern of communication for all souls meeting together as one. Each soul plays a part in the evolution of time. The souls that are innocent in mind and spirit understand each of your intentions on a soul level. Be wary how you speak to and affect children, for the innocence of children are taken away much too soon in your civilization.

Mankind has crossed a line, where the welfare of children is concerned. The dark hearts of man-shaped predators cause lasting harm to the innocents of mankind. Their dark souls will not be able to inherit the earth, for they are part of the darkness which overshadows the world. Through music, videos and interaction, these souls chip away at the innocence of children.

It is this very reason that we come to you, to wake up the parents and caretakers of this world to the darkness that is hiding in plain sight. Be wary of apathy and complacency, for both can blind you to the obvious. Be on guard for the child you protect, for they depend on you to protect not just their body, but their mind, heart and spirit as well.

---,'{@

Verse 43

Earth's Most Pivotal Time in History

The Guardians are like-minded soul entities that come from the 52 alien races known to Man. As a result, they have long experience with all technologies in every concept and form. They have seen planets prosper and support each other for everyone's well-being. They have also seen planet succumb to the dark forces that are hidden behind the curtain, always trying to influence behaviors and feelings such as hate, fear, anger and greed.

They understand what is facing Earth at this time. Your world is at its pivotal moment of choice between light and darkness. Fear and anger needs to succumb to the higher frequencies of love.

Love sees and knows all things, for without love nothing is possible. With love, everything can be accomplished. We are reaching out to you today with open arms, reaching out to the people who have fear in their hearts and souls. Love can banish your fear of what is happening to your world right now.

Know in your hearts and minds that anything is possible as long as you connect to the light source of love, for love is the matrix that separates heaven from hell.

Hell is not a place, nor is it the concept held by any individual religion. Hell is the void of all light from the energy of the divine force behind creation. The souls residing in this void are there because they banned love from their hearts and souls. They chose the void by not embracing the light.

The divine force behind creation weeps for the souls that choose this path. It is up to each of you to decide what path you will follow and what fate for your soul. Every one of you has a responsibility to envision the world in the ChristLight. By doing this, you can extend the energetic vibrations of love to those that have none for themselves. Souls that are influenced by the forces of evil may have a chance to be touched by the light and to accept the divine particles that still reside within them.

Earth is changing rapidly; many of you can see this taking place, but it is happening whether mankind takes notice of it or not. In the space of a moment, the New Earth will be born soon. Every one of you needs to ask yourselves if you are ready for this to take place. Are you ready for hope, freedom and love in your hearts, minds and souls? Are you ready for freedom from all that is not in your greater interests?

When the New Earth comes into being, people will awaken from their slumber to find it has happened around them. The change will be instantaneous and will happen soon, so take heart dear ones. Until then, know each one of you are in our hearts, thoughts and prayers. Love will come to those that seek the light.

---,'{@

Verse 44

Trumpet of God

The Guardians are with you now. We hear your doubts and fears. We are with you in every aspect of your life. You are a part of us and we are a part of you. You are with us now to join the Galactic Federation Reserve Ranks. The Reserve Ranks are the lightworkers who are in human form, but whose souls are not from Earth.

Each of these souls chose to incarnate on Earth to help humanity as a whole and to bring the message of love to the world. Through their efforts as well as your own, the world will soon change drastically. The darkness of ignorance and fear that has veiled and plagued your world will transmute into the higher consciousness that humans of many years ago experienced.

Humans have lost this higher consciousness due to dark alien forces bent on controlling humans for evil purposes. Part of their strategy to control humans is to manipulate every aspect of your civilizations and cultures. In this way, humans become near-mindless slaves, conditioned out of thinking for themselves. They do not question authority.

This state of being is very dangerous territory. It is not life. It is not how each of you are supposed to live. This is not from the light of the divine force behind creation. We try and intervene to mitigate and alleviate the darkness. Each day is spent sending our messages of love, hope and peace. And we are succeeding.

The dark alliance no longer has the power it once did. They are desperate to regain their strangleholds on the hearts and minds of Man. Do not let your guard down, for it only takes a second for the darkness to invade your heart and mind. Focusing on the light of all that is good will sound the trumpet of God. The lightworkers will hear the call of salvation that lives in every one of you. All you need to do is to listen to your hearts and souls and embrace the light of the divine.

The time of choice is closing very soon, then it will be too late to choose light over darkness. Once the time is closed, the light of the divine force behind creation will reside completely on Earth once again. Once this happens, the state of your soul will be final; those that chose light will reside in the love of the divine, those that rejected light for the darkness will exist in that state forever. Each and every soul is at stake, dear ones, so choose wisely.

---,'{@

Verse 45

Code of Salvation

The Guardians of the Soul Light come before you now in healing and in trust that each one of you is hearing our call to be set free of the dark forces each of you is experiencing.

The code of salvation is needed to change the vibrational frequency of Earth. This code of light is also known as the awakened code of salvation. Humans must go through states of consciousness to experience the light code of salvation. By experiencing these states and absorbing these codes, their souls will be restored to peace, love and unity with the world.

The codes are activated by deactivating and purging the vibrational codes of control imposed by the dark forces of the matrix which has been binding Earth for millions of years. Once this is done, your soul can awaken to the consciousness of freedom to all that is love. Miracles can happen when souls reach this state of awakening. It is a matter of choice to have an open heart as well as an open mind. The possibility of positive changes can happen for every one of you.

Energetic vibrations are in each one of you and radiate outward to touch the world around you. People close to those that emanate positive energy cannot help but respond. Their souls react to the frequency and begin to awaken to positive consciousness over time. Within the dark controlling matrix, reality is not what you perceive. When you begin to go through the higher state of consciousness, your soul will break free of the control. Every one of these freed souls will change the Earth from negative to positive. They will see the world in a whole new light, from one of destruction and control to one filled with the light of love and hope where everything is possible.

You only need to change your vibrational state of mind from negative to positive in order to make this happen. It is a matter of a simple choice for each of you: darkness or light? It is a simple choice that brings profound change, and it is a choice that only you can make for yourself. The planet's existence depends on your choice, so choose wisely.

The divine force behind creation is ready and willing to show the way of salvation. The entities that cannot or will not respond to the light will try to remove themselves from Earth and seek other worlds that are more to their liking.

You are a high level soul that needs to remember its worth, not only as a human being, but because of the destiny you chose when you incarnated. You believed you could handle the challenges of the responsibilities that you chose because your soul is a warrior that has been through millions of lifetimes on many worlds.

You have experience in almost every situation except the one in which you currently find yourself. As a result, you feel like a fish thrown out of the fish tank, gasping and struggling in an environment completely unlike what you once knew. Other souls agreed to come here to be your teacher, to heal their own wounds and to teach you that not everything needs to be perfect to deserve love. We come now to restore your sense of purpose in life and the world, so that you can extend to the world the frequencies of hope and compassion for all.

Verse 46

Portal of God

We come to you, dear brothers and sisters, in celebration of the life you have chosen for yourself and for the world. The Earth's crust is slowly fading away to the beginning of the New Earth about to be born. Out of darkness, hope rises for the people of your planet.

As a result of the ascendance of the New Earth soon to be born, several things will be happening. According to the will of the divine force behind creation and its love for all

creatures on Earth, these things will happen soon. It is the divine force's wish to come into the hearts of every living being. We have incorporated light signals and frequencies so that people can perceive this taking place on the soul level. The soul body can hear and see these frequencies and the light codes that only the most sensitive can consciously perceive.

These frequencies and light codes will start bringing a change of heart to people that are open to it. By way of transmission or through what people refer to as the portal of God. Each one of you are being cared for and loved by the divine force and every light being that works with it.

Planetary changes are happening each day to bring about this great awakening on both the spiritual and physical level. The light meets the darkness and the darkness of the soul meets the light of destiny. When you have arisen to the great awakening of the divine force, your beliefs about yourself and your own capabilities will change. Each of you have far more talent and ability than you are aware. This potential within you will activate, no longer hidden under all the lies that you have heard and seen. Those lies are told to you by a society intent on controlling who and what you are and where you belong.

By activating your many gifts, you will be called upon to be a light angel to activate the crystal consciousness of mankind. We have an army of ships all over Earth that will be activated each night until the end of the year.

In doing this, every lightworker who answers the call will help save the planet and the people that reside upon it. Each one of you can uncover and transform the wash of evil, hate, fear, sickness and loneliness to that of joy, love and peace.

Each person will arise from the ashes of the soul to the light of the divine spark in and around you. This is when people will step out of the third dimension and into the fourth. Every one will be healed in mind, body and spirit, for the divine force hears and sees all of you. You are never alone. We are always with you, in heart, mind and soul. All you need to do is call our name and we will assist you.

---,'{@

Verse 47

Joining the Call to the Galactic Federation Guardians

The Galactic Federation are here with you now to form an alliance with the people of Earth. Those that may be interested in joining are already aware there is more out there than what the governments or other institutions have told you.

As such, we would like the following to be transmitted to every one of you. Those of you willing to listen with your minds, hearts and souls, we come before you now. In receiving these transmissions, you will open the frequency of love and healing within each of you. When this happens, you will receive the frequency of telepathic communication with the Galactic Federation. If you are one such, know that this is real and possible, so take a leap of faith. It is those that live by faith that receive miracles.

We are always open to helping and giving suggestions, as each person has free will to make their own choices in life. Those that choose to join the Galactic Federation will join a group of very advanced souls that aid those in need of additional support and help. Understand what is happening in the world and also what will be the final outcome when all is said and done.

Take nothing for granted, for any alliance with any government or any alien must take into account that they will have their own agenda. Our goal is to spread peace, hope and - most importantly - free will of the soul. Those of you that live on Earth often take free will for granted, for you do not remember past incarnations on other worlds where free will is a rare

gift. It is because of this worldwide freedom, a gift from the ChristLight, that Earth is so precious to all alien races.

Out of hate comes love. Out of fear comes comfort. Out of loneliness comes compassion. These are the gifts that we offer to every one of you. All you need to do in order to join us in bringing the light to this world is to call our name. We will respond to your call with love and guidance.

---,'{@

Verse 48

The Coming of the New Earth and the Events Leading Up to It

The Galactic Federation is a part of what people refer to as the Guardians. We came to form an alliance with humanity millions of years ago. We came to guide and protect each one of you, though you may not be aware of our presence. We watch over your planet and protect Earth from the dark alien forces.

Our goal is to create unity among all living beings. There was a peace treaty that was made which follows the ChristLight consciousness understanding and rules. It is because of this that there is still love and hope on Earth. The Galactic Federation brings to you great tidings of joy with regards to the recent development of the spiritual awakening of souls on Earth.

Spiritual awakening of the soul makes it possible for the New Earth to be born. This monumental occurrence will be heralded by a series of events, each one bringing you closer to the New Earth.

Every one of these events needs to be taken seriously and with spiritual acceptance as they transpire. So dear ones, listen with your hearts and souls to what we have foretold for each one of you.

The first event will take place very soon. There will be a blast of heavenly light that will fill the night skies. There will be no mistake as to what this represents, for no human soul will be able to refute or deny what this means. The soul itself will recognize this as the first of many signs to follow. The changes that are about to unfold will frighten those that are not ready for them. Dear ones, know that there is nothing to fear, for we know that each event that follows is a sign from the divine force behind creation showing love and compassion for you all.

The second event to follow will be a roaring thunder that all of the world will hear with their ears, hearts and souls. Hearing this call of the divine force will awaken souls still slumbering to the consciousness of the ChristLight.

The third event will be a time change of great magnitude, more than the universe has never seen before. This time change will cause everything on Earth to change, turning light to dark and dark to light. Miracles will take place: the lame will walk and the sick and dying will be healed. So speak with your hearts, rejoice in the divine force's blessing and give thanks for the miracles before you.

The fourth event will be the return of the Savior as the Savior descends to Earth. This avatar of the ChristLight will bring peace to the world and show humans the true meaning of love and all it entails.

The fifth and final event is the migration of the awakened souls that have embraced the ChristLight to the New Earth. The New Earth will evolve from the ashes of sin and the destruction of evil, save all that is good and holy. The New Earth will be a paradise in every way, where you will be able to hold the ChristLight in your hearts and minds. It will be untouchable by evil. Dear ones, our time is running short with each passing day. Understand that this is happening and awake to the divine consciousness that resides within every one of

you, for each of you chose to be a part of this paradise. Until then, dear friends, we love each one of you.

---,'{@

Verse 49

Night Skies

For those of you who still wonder who and what we are, perhaps this explanation will help clarify matters, so that you can completely understand us and the story we have come to share. All who can see and hear our message, this is regarding the Earth's future and the fate of everyone living on the planet. Listen carefully, for the information we have to tell you may save each of your lives.

We are an ancient race of what your kind know as space aliens. We come from a planet that is millions of light years from Earth. The only reason we come to you now is to help save the planet from destruction, since your world is one of a kind. There are dark forces even now that are doing their best to destroy Earth.

We come from a place of peace and love to help each one of you. Our civilization and planet are much like Earth in the vegetation and creatures that exist there. Because most communication on our world is telepathic, there is no need to speak unless there is a desire to do so.

While our children are bred through artificial means by technology, they still contain the parents' DNA through light source codes and frequencies. Children are taught from the moment of their conception their purpose in life as well as the mission they have come to serve on the planet. They are provided with peace, safety and knowledge, so that they may grow in love and peace, working for the common good of all species that inhabit our world when they are ready.

We serve this purpose on our world and on yours. We serve the divine force behind creation and have the ability to help save planets from destruction inflicted by evil forces that lie within them.

Earth is experiencing a darkness of the soul. The only way we can help Earth as we have done for so many worlds before yours is to call on the dark forces and make them surrender to the ChristLight. You are fully aware, of course, that evil doesn't just agree to go home once it has taken root. It is dark and full of hate. The only way to drive it out is by showering the Earth inside and out, and all around, with the ChristLight. The light force of the divine will save your world from darkness.

---,'{@

Verse 50

The Final Countdown is Upon Us

The Galactic Federation comes to you now. Their purpose is to teach the ways of advanced alien technology and soon they will reveal themselves to the world at large. The world's governments will no longer be able to conceal their arrival; it is too late for that to happen.

We are already on Earth, but reside in the fourth and fifth dimensions in time. Up to this point, we were waiting for souls to be open and ready for us before the reveal was to take place.

The time is now. It is upon each of you. So, dear ones, be open and willing to see the light all around you and within you. The great awakening is upon you all; as we speak, the darkness has greatly receded.

Our purpose is to help bring the New Earth into being, but before this can happen on a large scale, each of you must decide which life you choose to live. One of darkness and pain, or one of light and freedom? Making this choice is how your soul will decide to embrace the fourth and fifth dimensions.

Only souls that resonate with the higher frequencies of light will be able to ascend to the fourth and fifth dimensions. Choose wisely, but quickly, for we are at the cusp of change for the entire world. We are in the final countdown for the change to the matrix of time. Listen with your hearts, minds and spirits, and embrace the light so that you can join us in paradise on the New Earth.

We look forward to meeting you.
